**2**
find Pets Near Me!
ZIP/CITY
I'm an org. rep

2-1 Recognize if input text is a
  ○ # (check if valid zipcode)
  ○ letters (pop up suggestions of cities as they type)
2-2 Pass zip/city to load animals
2-3 "Im an Org Rep" won't lead to anything yet (later phase of development)

3
Adopt Don't Shop
Search by breed, age, temperment, size, etc.
Current Location: 45810 (location dropdown)
OR
Search by shelter/organization
How can I help?

3-1 Make the icons general pics? or based off their location
3-2 Create stacked effect with blur
3-3 Location should be editable (should city + zip be displayed?)
3-4 Shade the Search button on bottom

4
Choose filters
Pet type:
Age Range:
Gender:
Lifestyle:
Keywords:
GO

4-1 Shade as they press
4-2 Keywords -- how do we separate their entries?

4a
< Current Location
shelter

4a-1 Location editable
4a-2 Display stacked/shaded if multiple dogs in same location/shelter match filters
4a-3 Resize images to be specific / recognize face (API usage)
4a-4 put a list icon on top-right for changing to that view

4b
Choose Filters
-some as other BUT
  → scrollable page w/ distance
  → sort option
  → breed-specific selection (similar to keywords)
+ need more ideas
Go →

4c
< Current Location
None, age

4c-1 When clicked, close all others (not an accurate representation rn) and pop up some info
** TO DECIDE **

4d
< Current Location

4d-1 Design tiles to include pertinent information
4d-2 (opt) allow more sideways scrolling to view more pics
4d-3 unlimited vertical scrolls
4d-4 how to sort? most-matched filters first?
4d-5 Change top right icon to map for map view

7a
Speckles
Speckles Dalmatian Mix, Male, 2 y/o

7a-1 Unlimited scrolling
7a-2 Should we resize the images?
7a-3 For photos with a comment, preview the comment on top of the image (as shown)

7c
Leave a comment on your interaction with Speckles...
POST REVIEW

NOT?
* Should f to confirm t the pet me page saying speckles or get a co

7d

Photo API already in place
